

## Step One – Creating 16-Patch

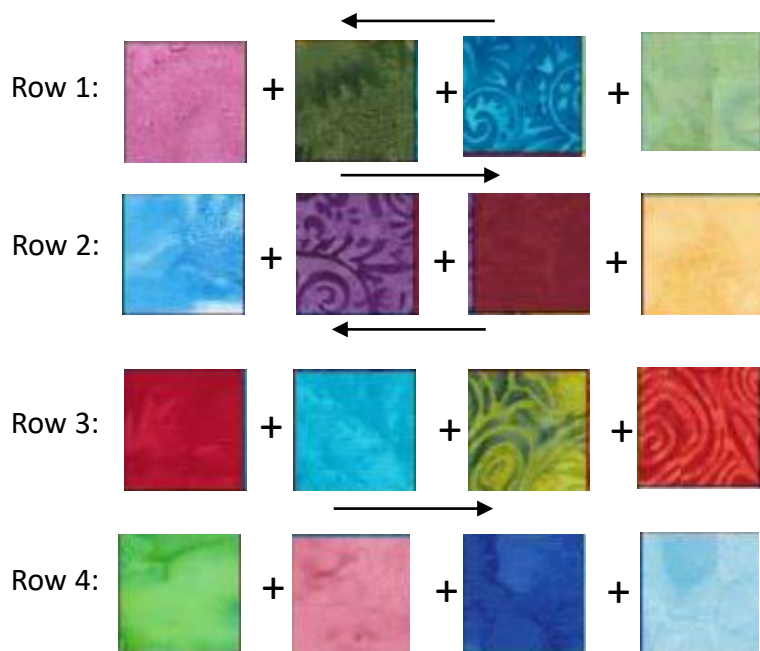

### Scrappy Fabric

2" scrappy squares - 16 per block

Queen – 400 squares

Twin – 288

Lap - 208

### Creating 16-Patch Blocks.

Start by choosing 16 different colors in a range of values. Sew the square into rows of 4. Press the seam allowance in the direction of the arrows. This will allow the nesting of the seams when you sew the rows together.

Sew the rows together. Press the seam allowance to the side. Square the 16-patch block to 6 1/2". Label 16-Patch.

See the chart below for the number of blocks needed for your size quilt.

**TIP:** Be careful when you are pressing; it won't take much to skew the little squares.

### Number of blocks needed:

Queen – 25

Twin – 18

Lap - 13
