

## Row One Log Cabin Blocks

You'll need the following to create 12 Log Cabin blocks:

### Background

- 1 1/2" x 5 1/2" rectangles – 12
- 1 1/2" x 4 1/2" rectangles – 12
- 1 1/2" x 3 1/2" rectangles – 12
- 1 1/2" x 2 1/2" rectangles – 12
- 1 1/2" squares – 12

### Scrappy

- 1 1/2" x 6 1/2" rectangles - 12
- 1 1/2" x 5 1/2" rectangles - 12
- 1 1/2" x 4 1/2" rectangles - 12
- 1 1/2" x 3 1/2" rectangles - 12
- 1 1/2" x 2 1/2" rectangles - 12
- 1 1/2" squares - 12

1 for each block →

**TIP:** If you cut your strips the larger size, you may save on fabric.  
For example:  
5 1/2" x WOF,  
4 1/2" x WOF,  
etc.

**HINT** - If your 1<sup>st</sup> units don't measure 1 1/2" x 2 1/2", check to make sure your seam allowance is accurate. It is also a good idea to check your pressing technique and make sure the units are fully open. If all else fails, check to make sure the squares (rectangles) were accurately cut. This is the reason behind having the rectangles pre-cut. It will let you know immediately if there is something wrong. If the units and the rectangles are not the same lengths, go back and check your seam allowance, pressing, and cutting techniques.

Layer a Scrappy square with the Background square, right sides together and sew with a 1/4" seam allowance. Press the seam allowance toward the scrappy color. Create 12 rectangles that measure 1 1/2" x 2 1/2".

Layer the above unit with the Scrappy 1 1/2" x 2 1/2" rectangle, right sides together. Sew down the long edge. Chain sewing will save time. Create 12 units that measure 2 1/2" square. Press seam allowance toward the Scrappy color.

Continue the process as above, using the Background 1 1/2" x 2 1/2" rectangle. Be careful of the placement; use the diagrams for reference. Press seam allowance toward the Background rectangle. Create 12 units measuring 2 1/2" x 3 1/2".

Continue the process as above, using the Background 1 1/2" x 3 1/2" rectangle. Be careful of the placement; use the diagrams for reference. Press seam allowance toward the Background rectangle. Create 12 units measuring 3 1/2" square.

Continue the process as above, using the Scrappy  $1\frac{1}{2}'' \times 3\frac{1}{2}''$  rectangle. Be careful of the placement; use the diagrams for reference. Press seam allowance toward the Scrappy rectangle. Create 12 units measuring  $3\frac{1}{2}'' \times 4\frac{1}{2}''$ .

Continue the process as above, using the Scrappy  $1\frac{1}{2}'' \times 4\frac{1}{2}''$  rectangle. Be careful of the placement; use the diagrams for reference. Press seam allowance toward the Scrappy rectangle. Create 12 units measuring  $4\frac{1}{2}''$  square.

Continue the process as above, using the Background  $1\frac{1}{2}'' \times 4\frac{1}{2}''$  rectangle. Be careful of the placement; use the diagrams for reference. Press seam allowance toward the Background rectangle. Create 12 units measuring  $4\frac{1}{2}'' \times 5\frac{1}{2}''$ .

Continue the process as above, using the Background  $1\frac{1}{2}'' \times 5\frac{1}{2}''$  rectangle. Be careful of the placement; use the diagrams for reference. Press seam allowance toward the Background rectangle. Create 12 units measuring  $5\frac{1}{2}''$  square.

Continue the process as above, using the Scrappy  $1\frac{1}{2}'' \times 5\frac{1}{2}''$  rectangle. Be careful of the placement; use the diagrams for reference. Press seam allowance toward the Scrappy rectangle. Create 12 units measuring  $5\frac{1}{2}'' \times 6\frac{1}{2}''$ .

Continue the process as above, using the Scrappy  $1\frac{1}{2}'' \times 6\frac{1}{2}''$  rectangle. Be careful of the placement; use the diagrams for reference. Press seam allowance toward the Scrappy rectangle. Create 12 units measuring  $6\frac{1}{2}''$  square.

Once you have completed 12 blocks and squared them to  $6\frac{1}{2}''$ , it is time to decide on a layout. Don't be afraid to try a couple of different layouts with color placement and turning the blocks a quarter turn. Sew your blocks together to create your row measuring  $6\frac{1}{2}'' \times 72\frac{1}{2}''$ . Set it aside until next month.
