

## Row Eight Heart Blocks

You'll need the following to create 12 Heart Blocks:

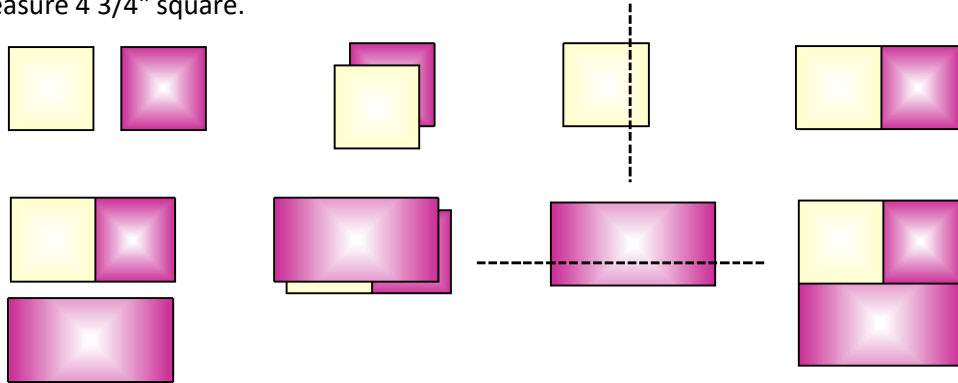

**Background**

3 7/8" squares - 24 cut once on the diagonal  
2 5/8" squares - 12

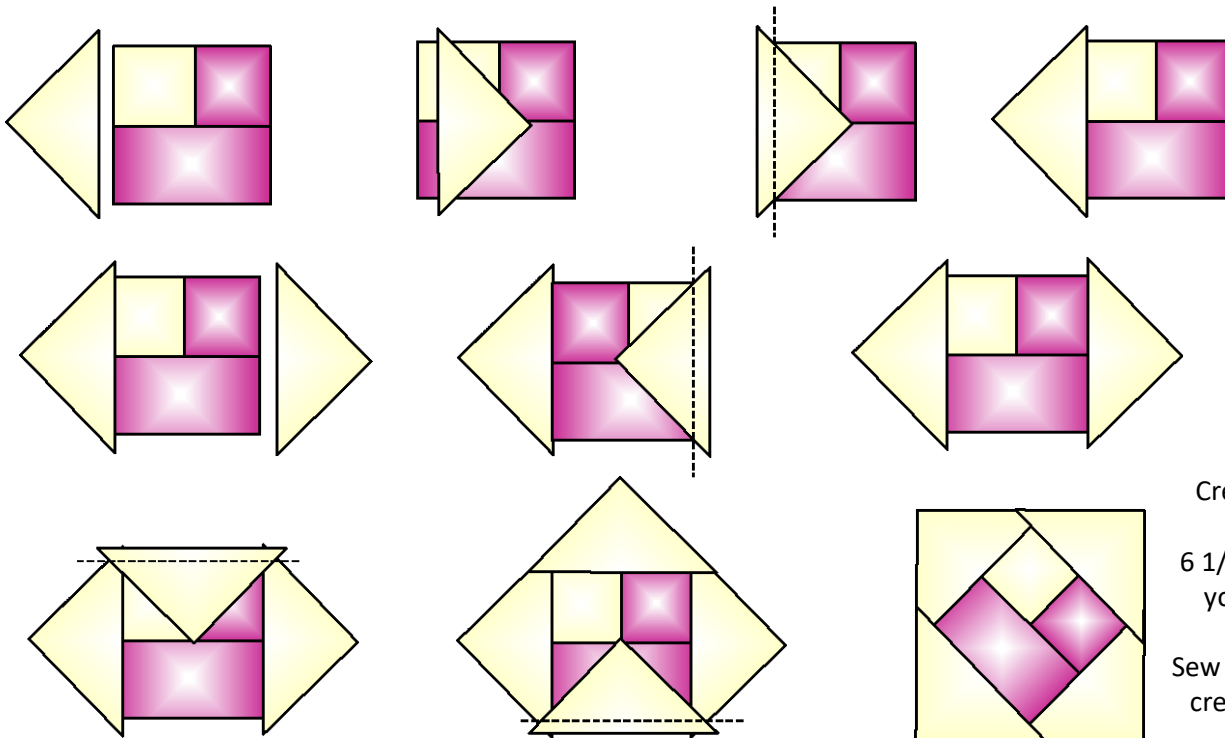

**Scrappy - (I am using 6 colors)**

2 5/8" squares - 12 (2 from each color)  
2 5/8" x 4 3/4" rectangles - 12 (2 from each color)

Layer a Background square with the Scrappy squares, right sides together and sew. Press seam allowance toward the Scrappy color. Create 12 units measuring 2 5/8" x 4 3/4". Layer these units with the 2 5/8" x 4 3/4" Scrappy rectangles, right sides together. Sew down the lengthwise edge as shown in the diagram. Press seam allowance toward the Scrappy rectangles. These units should measure 4 3/4" square.

Layer the Background triangles on the heart units right sides together, as shown in the diagram. The triangle will have a bit extra sticking out on both sides of the heart units. When you can, use the center line of the units to line things up. Sew and press the seam allowance toward the triangles. Take care not to stretch them. Continue on the opposite side as shown and then the remaining two side. Your heart blocks should measure 6 1/2".

Create 12 Heart blocks measuring 6 1/2" square. Decide on your layout and color arrangement. Sew the blocks together to create a row measuring 6 1/2" x 72 1/2".
